

Make sure people know how to use an AED and do "Compression Only" CPR. **LEARN OR REFRESH YOUR SKILLS.**

The AED Smart® Station offers video awareness training in an AED Cabinet.

The Video Component

- ✓ Quickly learn key points on how to perform CPR and use an AED
- ✓ Meets 2015 ILCOR guidelines
- ✓ Our videos are available for all major AED Models
- ✓ Each Video is less than 2.5 min in length
- ✓ Videos are available in multiple languages (More languages being added)
- ✓ Customer Logo can appear on the video screen

The Cabinet

- ✓ Made of 20-gauge, cold-roll steel, with electro-static powder coat finish
- ✓ "AED" printed on top with additional labels on the cabinet
- ✓ See-through door attached using a heavy-duty hinge and opened with a chrome-plated handle
- ✓ Requires standard 120V electrical plug close to the cabinet
- ✓ Mount the cabinet. Plug it in. Turn it on and the screen will load immediately
- ✓ Dimensions: 17.38"W x 17.38"H x 7.11"D
- ✓ Arrives ready to securely store an AED mounted on the wall. No cabinet assembly required

WIFI (Hence the 'Smart' in our name)

- ✓ The AED Smart® Station collects daily metrics and reports them monthly via email
- ✓ Automatically uploads new video content

Customization Options Include:

- ✓ Custom Videos showing your organization's branding
- ✓ Unique stickers, labels, logos etc. for exterior of the cabinet
- ✓ Key-activated, 9V battery-operated red strobe light with 120db door alarm
- ✓ Stainless Steel or Aluminum cabinet construction
- ✓ Partially or fully recessed cabinets
- ✓ EU power
